management
.

□□□□□

The attention of Mr

Antonio Espinal President of the World Karate Federation and World Karate Federation

My

name

is

Duta Gheorghe, a Romanian citizen residing in Romania Bucharest, sympathizer karate

, (where I had the pleasure to attend the press conference that you held it in June 2014 at Hotel Rin)

, will draw your attention to Mr Antonio Espinal President of the World Karate Federation and World Karate Federation leadership following:

Considering that:

- Organizing Committee (IOC) Olympic Games Tokyo 2020 shortlist included karate as a possible future Olympic sport
- The final decision whether KARATE will become an Olympic sport will soon be at the IOC session 129 which will take place in Rio in August 2016
- That the IOC places great emphasis on the protection of athletes in various sports competitions during disputing, the prevention of injuries and avoiding injuries (if possible) during disputing sports competitions
- As a measure of discouragement premeditated aggression

I propose to consider whether the penalty is imposed reintroduction karate athletes -kumite :
We suggest to come back to the previous WKF rules , version 6.0 , available in January 2009 - December 2011 , speaking about increased agresivness of the fighters .

According to the article 8 - prohibited conduct , at the penaltys in category 1 , after contact , the abuser was penalysed with Chukoku , then Keikoku (the one who was kicked got Nihon - 1pts) , Hansoku

Chui (the one who was kicked got 2 pts) , and last , Hansoku , the abuser was disuqalified , and his opponen won the fight. ** will obey attention - my suggestion
